## Conveyor Mounted Hopper Gate Door Opener

The Conveyor Mounted Door Demon<sup>®</sup> features smooth hydraulic pressure for maximum torque to open even the toughest hopper gate doors. The unit is self-contained so it does not affect the conveyor's functions. The Conveyor Mounted Door Demon<sup>®</sup> can be mounted in the left- or right-hand position and exhibits total product flow control with smooth hydraulic height adjustment for varying capstan levels.

- Directional controls with variable speed in both (open and close) directions
- 12 volt DC (battery) powered unit
- Custom length extendable (telescoping) shaft
- Pressure relief protection
- Emergency stop palm button and quick disconnect power on fused power source
- Opens fixed or moving hopper gates
